**Subject : Certification Application**  
**FCC ID : ZFWRENBPAUTOS**

Dear Sirs,

It is requested that the following information is to be held confidential on behalf of Continental Automotive Rambouillet France SAS

FCC Rules Part 0.459 and 0.457 refers.

<b>Partlist / BOMS<sup>(1)</sup>:</b>	2 files:	Daughter_Board_Partlist.pdf	5 pages
		Mother_Board_Partlist.pdf	20 pages
<b>Operational Description<sup>(2)</sup>:</b>	1 file:	AuTOS_Specifications.pdf	22 pages
<b>Block Diagram<sup>(3)</sup>:</b>	1 file:	Block_Diagram.pdf	2 pages
<b>Schematics<sup>(4)</sup>:</b>	2 files:	Daughter_Board_Schematics.pdf	1 page
		Mother_Board_Schematics.pdf	19 pages

.../...

**The reasons motivating this request are :**

Applicable to all files <sup>(1) to (4)</sup> : The concerned product "AutOS" is innovative as it is an automotive PC (Personal Computer) for Electrical Vehicles.

Consequently, there is so far no equivalent product on the market and detailed information are kept confidential by Continental Automotive Rambouillet France SAS and shall be kept confidential by any party involved in the project.

Disclosure of the technical data enclosed in these files could enable competitors to discover Continental Automotive France SAS advanced position on this new market and could even enable competition to start developing a copy-based product before this equipment is being mounted on cars.

Especially for Partlist / BOMS <sup>(1)</sup> : The use of this file could enable to recalculate BOM cost and to evaluate product sales price. This could result into a substantial competitive harm.

Especially for Schematics <sup>(4)</sup> : These two files contain the detailed design of the product as the result of two years development work and specific know-how of Continental Automotive France SAS. Any disclosure of these 2 files would immediately reveal major inputs to any competitors to copy the AutOS product.

As specified in FCC Form 731, Continental Automotive France SAS requests permanent confidentiality of these 4 files.

Yours sincerely,

**Alain SAUVE**  
Quality Manager
